AutoActiver

**Successful transaction!** The autoactiver has been successfully recorded

## AutoActiver Settings

By placing a recurring AutoActiver order, you can ensure that you never run out of your favourite Lavylites products - and become eligible for Personal Bonus. Every 28 days, the system will automatically order the products that you have selected, and pay for them on your behalf by redeeming your available Bonus Points, and charging the rest on your advance payment balance or on your saved credit card.

The easiest way to pay for your AutoActiver orders is by saving your credit card. If you do not wish to save your card, you can also use AutoActiver at your advance payment balance's expense. If you have both, we will use your advance payment balance first.

You can change and cancel your periodic order anytime. To change its contents, set up a new recurring AutoActiver order in the Webshop.

You do not have enough advance payment balance for the upcoming order. Save your card details or purchase a minimum amount of 133 EUR advance payment.
